

# *how to craft a* **RESUME** *that tells your* **STORY**

## 1

### LET THEM KNOW WHO YOU ARE.

Create a heading with your **contact information**, including your name, phone number, a professional email address, and a mailing address.

Make your name big and bold at the top of the page. You want it to stand out in a stack of resumes!

Experiment with the format of your resume so it looks clean, easy to read, and professional.

## 2

### SHOW OFF YOUR EARLHAM COLORS.

Create an **education section**. You should include your college, its location (city and state), your major(s), any minors, anticipated graduation date, and your GPA if it requested. If you have relevant coursework, any honors or awards, or off-campus study experience, that information can go here as well.

Remember that education can be experience, too! If you worked on a class project in the community or learned a special research technique, you may want to include that information in your resume.

## 3

### LET THEM SEE WHAT YOU CAN DO.

Develop a section for **experience**. This can include jobs, internships, volunteer work, and even offices held in student organizations. For each experience, include your position title, the organization name, location, dates, and bullet points describing your accomplishments and/or responsibilities. Start each bullet point with an action verb, to show you were actively involved in your work.
